CAREER FAIR

About

The OIST Career Fair provides a unique platform for participants to network with companies and explore diverse industry career paths, while companies can discover the exceptional value that PhD holders bring to their organizations.

Panel Discussion

Engage in dynamic discussion to bridge the gap between academic expertise and industry needs.

Company Presentation

Three-minute pitches by companies introducing their philosophy, business, project focus, culture, and more.

Student Poster Presentation

Students showcase their research highlights, skills and interests. A great opportunity to get to know the students individually.

Booth Visit

Two rounds facilitate exchange between companies and students. The first round is by appointment, and the second round is open to all participants.
